

## DAILY REGIMEN KIT FOR SKIN

It is important to know and categorize the function of each product and the level of danger of each of the ingredients. In one of our blogs, we explain why we must be very careful with what we allow to cross our first barrier of defense, the skin. Thanks to Biotechnology we understand how proteins interact with other proteins and our DNA and RNA, how the cell replicates and regulates its functions and how if mutations occur due to chemical or physical reaction, we can develop allergies, inflammation, immunotoxicity and even cancer.

The following score system we have issued is granted by clinical trials made for most of our products with Dr. Zoe Draelos, papers from PubMed and EGW. Being the number 1 the safest and the 10 the worst for you.

This kit is meant for all skin biotypes:  
The [overall score](#) for the kit is 1.

The [active ingredient](#) for this kit is 

## SKIN CARE: **DAILY**

Facial Cleanser

we recommend **MOISTURIZING**,  
**BEFORE** applying

- Sunscreen

Every

<https://gliabeauty.com/facial-cleanser/>

**Product Name:** FACIAL CLEANSER - 4oz

**Recommended ages:** 20+

**pH:** 6.3

**For all skin types**

**Description:** Innovative formula of Facial Dermo cleanser with Exosomes thoroughly cleans and prepares the skin for other skincare products such as serums and moisturizers. Does not contain sulfates and parabens.

- Safely removes makeup and impurities from your skin.
- Maintains the natural balance of pH on the skin.
- Helps to unclog pores.
- Improves the skin's overall appearance and texture.

Use it in the day and at night to wash your face. This is the first step to your daily skin care routine.

**Home Use Instructions:** Apply the facial foam on the wet neck and face with circular movements. Rinse with plenty of water. This formula is very amicable to sensitive skins and women who are expecting, and it is washable so, its only function is to wash off the skin and to regulate the pH for the application of the moisturizer (mixed skins), serum (dry skins) and creams (extremely dry skins).

**Main Assets:**

Component	Function	%
-----------	----------	---

<b>Mesenchymal Stem Cells Growth Factors and Exosomes from the umbilical cord</b>	<b>GF are proteins that regulate immune responses and reproductive functions of the cell. This active ingredient is not synthesized in a lab, it is extracted from placentas and cultured. It contains anti-inflammatory and regenerative properties. Exosomes are vesicles generated by stem cells that carry macromolecules and improve intercellular communications.</b>	<b>5%</b> 
<b>Lactic acid</b>	<b>Exfoliating alpha-hydroxy acid that clears dead skin cells from the skin pores. It regulates the pH and regulates the overproduction of oils.</b>	<b>0.4%</b> 
<b>Salicylic acid</b>	<b>Exfoliating acid that is associated with the treatment against acne, psoriasis, seborrheic dermatitis and dandruff.</b>	<b>0.4%</b> 

### Other Key Ingredients:

<b>Component</b>	<b>Function</b>	<b>Score</b>
<b>Double Distilled Water</b>	<b>Solvent.</b>	
<b>Lauryl Glucoside</b>	<b>Glucoside with foam and skin conditioning properties.</b>	
<b>Disodium Cocoamphodiacetate Ethoxylated Lanolin</b>	<b>Surfactant with emulsifying properties. This is amicable to our Mesenchymal stem cell derivatives.</b>	
<b>Pentylene Glycol</b>	<b>Humectants that bind with water.</b>	
<b>Hydroxyacetophenone</b>	<b>Amicable Preservative.</b>	
<b>Mica</b>	<b>Is a silicate mineral that improves the consistency of the cosmetic.</b>	

<b>Fragrance</b>	<b>Fragrance was tested in the clinical trials. This product is recommended for sensitive skin.</b>
------------------	---

**Precautions/Caution:** External/Skin use only. Do not eat. Suspend use in case of reaction/allergy. Keep out of reach of children.

<https://gliabeauty.com/sunscreen/>

**Product Name:** SUNSCREEN SPF 50+ GEL - 1oz

**Recommended ages:** 20+

**pH:** 6.5

**For all skin types**

**Description:** Sunscreen SPF 50+ provides protection against harmful UV rays from the sun. Helps to prevent sunburn and reduces the risk of premature aging caused by sun damage. Non-greasy texture, non-sticky gel that is imperceptible on the skin.

- Helps to prevent sunburn by blocking or absorbing UV rays
- Reduces the risk of sun-related skin damage
- Prevents the formation of hyperpigmentation caused by sun exposure
- Helps to slow down the signs of aging

**Precautions/Caution:** External/Skin use only. Do not eat. Suspend use in case of reaction/allergy. Keep out of reach of children.

**Main Assets:**

Component	Function in nature	%
Titanium Dioxide	<b>Sunscreen decreases the risk of skin cancer and early aging skin caused by the sun.</b>	 <b>10%</b>
Zinc Oxide	<b>Sunscreen decreases the risk of skin cancer and early aging skin caused by the sun. This may be risky if you inhale or put your sunscreen as an aerosol.</b>	<b>5%</b> 

### Other Key Ingredients:

Component	Function	%
<b>Mesenchymal Stem Cells Growth Factors and Exosomes</b>	<b>They act as signaling molecules that stimulate cell proliferation and differentiation. This is important for tissue regeneration. These are extracted from placentas and umbilical cords from healthy newborn donors and cultured in federal approved labs.</b>	
<b>Double Distilled Water</b>	<b>Solvent.</b>	
<b>Avena Sativa (Oat) Extract</b>	<b>Protein - structural protein that allows your tissues to stretch out and stick back.</b>	
<b>Stearic Acid</b>	<b>Moisturizer</b>	
<b>Sorbitan Stearate</b>	<b>Emulsifier</b>	
<b>Glycerin</b>	<b>Moisturizer</b>	
<b>Iron Oxide</b>	<b>Mineral colorant</b>	

<b>Hydroxyacetophenone</b>	<b>Amicable Preservative.</b>	
<b>Fragrance</b>	<b>Fragrance was tested in clinical trials.</b>
