

Product Descriptions for Oily Skin Regimen

It is important to know and categorize the function of each product and the level of danger of each of the ingredients. In one of our blogs we explain why we must be very careful with what we allow to cross our first barrier of defense, the skin. Thanks to Biotechnology we understand how proteins interact with other proteins and our DNA and RNA, how the cell replicates and regulates its functions and how if mutations occur due to chemical or physical reaction, we can develop allergies, inflammation, immunotoxicity and even cancer.

The following score system we have issued is granted by clinical trials made for most of our products with Dr. Zoe Draelos, papers from PubMed and EGW. Being the number 1 the safest and the 10 the worst for you.

This kit is meant for skin byo types that trend to get acne:

The overall score for the kit is 1

The active ingredient for this kit is 

Perfect Skin

Product Name: PERFECT SKIN GEL

Recommended ages: Young people 14 to 30 years old.

pH: 6.3

Facial Moisturizing Gel for oily skin

This is the second step after using the facial cleanser. Use it in the day and at night to hydrate your face and neck while reducing imperfections.

This is meant for the face and neck.

Description: Hydrates the skin while reducing the appearance of imperfections such as fine lines, blemishes, and uneven skin tone. Has a lightweight and non-greasy texture, making it suitable for all skin types, including oily skin.

- Smooth, relaxing moisturizer for sensitive and stressed-out skins.
- Provides even hydration.
- Leaves skin feeling soft, tight, and lifted.
- Visibly reduces imperfections.
- Improves the overall appearance of the skin.
- Provides long-lasting hydration.

Main Assets:

Component	Function in nature	%
-----------	--------------------	---

<p>Mesenchymal Stem Cells</p> <p>Growth Factors and</p> <p>Exosomes from the umbilical cord</p>	<p>GF are proteins that regulate immune responses and reproductive functions of the cell. This active ingredient is not synthesized in a lab, it is extracted from placentas and cultured. It contains anti-inflammatory and regenerative properties.</p> <p>Exosomes are vesicles generated by stem cells that carry macromolecules and improve intercellular communications.</p>	<p>5%</p> 
<p>Collagen</p>	<p>Protein - structure of body's skin, muscles, bones, and other connective tissues. If you downregulate, signs of aging will appear. Male usually have better reserves at mid age than women.</p>	<p>3%</p> 
<p>Elastin</p>	<p>Protein - structural protein that allows your tissues to stretch out and stick back.</p>	<p>2%</p> 
<p>Lactococcus Ferment Lysate</p>	<p>Probiotic - boosts peptide production like collagen, elastin, and ceramides in your skin. This presents exfoliant properties and improves the skin microbiota, avoiding opportunistic ubiquitous pathogenic bacteria to get in your skin. This will help you to avoid inflammation and edema.</p>	<p>0.5%-1%</p> 
<p>Hyaluronic acid</p>	<p>This allows skin to stretch and flex, reducing age signs and fine lines. This is very important for mixed skin that tends to get oily at a mid 30 age. Recommended for mixed skin types.</p>	<p>0.5%-1%</p> 
<p>Arginine</p>	<p>Amino Acid that protects the skin from free radical damage and allows skin reparation.</p>	<p>0.5%-1%</p> 

Lactuca Sativa (Lettuce) Leaf Extract	Natural antibacterial, this is used to prevent acne.	0.5%-1 % 
--	---	--

Home Use Instructions: Apply the gel to the neck and face surface with circular movements until it has been completely absorbed. You can apply it in the morning and at night.

You can use it in the morning, after washing your face and using the tonic to remove impurities. If you want to go to the sunlight or perform other activities, it is recommended to use sunscreen after the application of the perfect skin effect.

Key Ingredients:

Component	Function	Score
Double Distilled Water	Solvent.	
Pentylene Glycol	Humectants that bind with water.	
Sodium PCA	The sodium salt of pyrrolidone carboxylic acid is an aminoacid found in the skin barrier.	
Cellulose	Anti-cracking agent for cosmetics used to improve viscosity.	
Hydroxy-acetophenone	Amicable Preservative	
Mica	A silicate mineral that improves the consistency of the cosmetic.	

Fragrance

Fragrance was tested on the clinical trials. This product is recommended for sensitive skin.
